Brand New Book ***** Print on Demand *****.Excerpt from A Drill-Book in Algebra So far as concerns mathematical studies there are always two classes of pupils: those that will use mathematics later in life as one of the tools of their trade - the engineers, architects, accountants, teachers, scientists; those that will not so use it. To both of these classes the careful study of the elements of geometry and algebra is important: to the first class as laying a sure foundation for work in the higher mathematics and for its professional applications; to the others as giving the power and the habit of exact statement and rigorous proof. In this later day we pride ourselves on our laboratories, in which the pupil comes face to face with the facts and forces of nature - every mathematical recitation-room under an able teacher is a laboratory in logic, and for sound logic there is always an unlimited demand. This book is for use by the more advanced classes in the high schools and academies and the lower classes in the colleges; and its primary object...
